

SA PC 10661  
"7/1/85"

9 November 1956

Westinghouse Electric Corporation  
Friendship International Airport  
Baltimore, Maryland

STAT Attention:

Gentlemen:

Reference is made to your recent offer to conduct a flight test program for the APQ-56 In-Flight Processor at Friendship International Airport using a Westinghouse DC-3 aircraft.

The Government will furnish to you, on a loan basis, one (1) APQ-56 flying set, Serial 03, for installation in your DC-3 aircraft and use in conducting flight tests of the processor. The APQ-56 set will be delivered to you f. o. b. your plant and may be used for test purposes during the period commencing with receipt of the equipment at your plant and ending on or about 2 January 1957. Upon expiration of the above period the flying set shall be returned to the Government f. o. b. your plant.

It is understood and agreed that the loan of the APQ-56 set to you, including installation, test and delivery thereof, will not result in any claim whatsoever against the Government under this agreement.

It is further understood and agreed that upon completion of the test program, the APQ-56 flying set will be returned to the Government in the same condition as received by you, less normal wear and tear. Your liabilities in connection with the loan of the subject equipment shall be those set forth in the Government-Furnished Property clause, Paragraph 13-502 of the Armed Services Procurement Regulations, as it pertains to negotiated fixed price contracts.

Please indicate your acceptance of the foregoing conditions by affixing your signature on one copy of this letter and returning same to me at the earliest practicable date.
